

Occupational Therapy

Master of Science

Help others and be rewarded. As a post-baccalaureate student, this program develops your ability to provide entry-level, evidence-based occupational therapy in many health care settings. You'll serve patients of all ages as you help restore abilities and improve quality of life.

Why DU?

- Occupational Therapy education is a fast-growing field with 24% projected growth through 2024.
- Fully-accredited by the Accreditation Council for Occupational Therapy Education (ACOTE).
- Unique curriculum that pairs best practices in Occupational Therapy with the latest knowledge, research and theory.
- Hands on learning experiences with student to faculty ratio 1:15.
- Inter-professional experiences providing the foundation for real-world practice in the profession.
- Be prepared to take the national examination leading to Board for Certification in Occupational Therapy (NBCOT).
- Be practice ready at graduation
- Level I fieldwork experiences that exceed the national requirement.

Davenport University

- We are a private, non-profit university, preparing students for careers.
- We award \$15 million in scholarships each year.
- We maintain a low student to faculty ratio
- We offer classes online and at campuses across Michigan.
- We are nationally respected for our curriculum and faculty.

College of Health Professions

The DU College of Health prepares you for growing opportunities within many healthcare disciplines, including nursing, health information management, occupational therapy and allied health. We focus on building essential skills for your professional advancement. Find your future with Davenport's College of Health Professions.
