

Master of Science in Nursing (MSN)

COLLEGE OF HEALTH PROFESSIONS

Put your passion for patient care to work.

Davenport University will help you achieve a rewarding career in the most in-demand nursing disciplines with the Master of Science in Nursing (MSN) degree program. Our program develops graduates who are highly sought after and known for their well-rounded skills. It will equip you with the high-level problem-solving skills that today's advanced nursing roles demand. Plus, earning your MSN degree will set you on a path to a higher nursing salary.

With an MSN from Davenport you'll develop critical and creative thinking skills as well as leadership abilities you can bring to any nursing role. You'll fine-tune your nursing skills and abilities with capstone and clinical experiences and then round out your master of science in nursing with a special project or MSN thesis.

With a master's degree in nursing you'll be well prepared for roles such as nursing manager, clinical leader and specialist. Your nursing MSN degree at Davenport will also prepare you to complete family nurse practitioner, psychiatric mental health nurse practitioner and nurse educator concentrations, which can open even greater career pathways.

Experience the Davenport difference:

- Take advantage of our fully online MSN degree program*
- Learn from highly credentialed faculty with current practical experience
- Choose from four MSN concentrations
- Benefit from more one-on-one instructor attention with our small class sizes

**Master's and post-graduate coursework is online with on-site clinicals.*
